

The City of Plano has a limited number of dumpsters, port-o-lets, and wash stations available for use during the spring, summer, and fall, through our waste contract with Groot. Therefore, special events organizers need to submit their request for the number of units they intend to request for their festivals by May 1 of each calendar year. This is separate from the required Special Events Request. The Special Events Committee will work with organizers to help them, however, any units in excess of what the City of Plano has available and can provide is the responsibility of the organizer of the event.
