

10/24/2018

Plano residents,

MetroNet is very excited to bring our advanced technology fiber optic network to Plano residents and businesses. Read on for more information about MetroNet, including ways to inquire further about our services.

MetroNet, based in Evansville, Indiana, currently serves more than 50 communities in Indiana, Illinois, and Kentucky with state-of-art telecommunication services delivered through our 100% fiber optic network. The fiber optic structure of our network means more bandwidth, which in turn means our customers have access to some of the fastest internet speeds in the country, along with stunning television quality, and clear, reliable telephone service.

While MetroNet will not be building in neighborhoods until next year, residents will begin seeing MetroNet trucks and personnel in the area preparing for network construction. MetroNet uses cutting-edge installation technology to build its fiber optic network, while actively minimizing the impact on properties within construction areas. Residents will receive more information about what they can expect during construction in the months to come.

Plano residents who are eager to be at the front of the line when service installations begin can sign up early online by visiting [MetroNetInc.com](http://MetroNetInc.com) and clicking "Order Now", or by calling 877-386-3876. Those who sign up early can view pricing and product information, and will receive regular updates on construction progress, as well as details for scheduling installation once available.

At any time, residents can contact us through our dedicated construction website at [construction.metronetinc.com](http://construction.metronetinc.com) by clicking the green "Contact Us" button, or by calling 877-386-3876. Residents are invited to follow MetroNet on Facebook at [facebook.com/MetroNetFiber/](https://facebook.com/MetroNetFiber/), where we regularly post helpful hints and tips, community involvement initiatives, and host fun contests with awesome prizes.

MetroNet is thrilled to become a part of the Plano community, and we look forward to welcoming Plano residents and businesses into the MetroNet family.

Sincerely,

MetroNet Customer Service
