

Spring 2012 Mayor's Report

The year of 2012 should be an interesting and exciting year for the citizens of Plano. Our new police building will be opening in the 2nd quarter of the year. We will be planning an event to invite the citizens of the City to tour the new building when it is completed.

We welcome the folks from the Plano Pharmacy to the City; they are located in the Reaper Center. We also welcome the folks from Dunkin' Donuts to the City.

We are looking forward to the opening of the Rural King Store that will be located in the building that was the original Walmart Store on Rt. 34. We welcome the folks from Rural King to our community.

We will continue to aggressively market the City of Plano to both commercial and industrial companies. We are working to get a user for the industrial park on Eldamain Rd. We have many other areas in the City that we would like to see developed with retail and commercial users.

We will be continuing to work on the City Center TIF. The TIF is a way to complete various improvements within the TIF boundaries without raising taxes. The TIF funding is provided by shared sacrifice from all of the taxing bodies for the good of the City. We are working to develop a specific list of TIF projects.

Thank You,

Mayor Bob Hausler
